

Opening of EnergyWeek

Tuesday 18 March | 09:00 - 10:30
Music Hall | Free of charge

Welcome to the international Vaasa EnergyWeek!

The opening ceremony for EnergyWeek 2025 gives us an opportunity to together set the goals and framework for this year's event. When we talk about an industry this significant, it is important to keep our vision clear, set the bar high and together find the solutions to use when facing the most important challenges of our time, fighting the climate change, finding sustainable solutions and creating smart cities and regions.

The presentations are followed by a panel discussion.

This year, we are focusing on examples concerning how to get business prosperity through international cooperation.
